

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal remedy that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them, and you will have the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home, and is made as follows:

Secure from your druggist 1 oz. Paracetamol (Double strength), about 75c worth. Take this home and add to it a pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dripping in the back of the throat, are other symptoms that show the presence of catarrhal poison, and which are often entirely overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are said to be directly caused by catarrh, therefore, there must be many people whose hearing can be restored by this simple home treatment.

Every person who is troubled with head noises, catarrhal deafness or catarrh in any form, should give this prescription a trial.—Adv.

World "Wants" Work Wonders.

CITY BETTER EVEN IF ARRESTS WERE MORE LAST YEAR

Commissioner Woods's Report Shows Increased Efficiency of the Department.

The statistical report of the work done by the Police Department during the year 1915 was submitted to the Mayor by Police Commissioner Woods to-day. A striking feature of the report is the large increase over 1914 of the number of arrests for misdemeanors and in the number of summonses served.

The total of arrests made and summonses issued during the year was 212,452, as against 190,184 in 1914. Of the total defendants 185,195 were males and 28,632 females. Convictions were obtained in the courts against 161,121 persons or 75.84 per cent. of those taken into custody. This is the highest record of convictions in the history of the Police Department. Commissioner Woods attributes the

large increase in arrests for misdemeanors and summonses issued for minor offenses to increased activity on the part of policemen in the enforcement of traffic regulations and corporation ordinances. More street car rowdies were arrested in 1915 than in any previous year.

There were 246 murders in the city during the year. Seven persons were killed evading arrest and 27 of the murderers committed suicide. The police made 158 murder arrests. In 1914 the murders in the city totaled 257 and in 1913 there were 286 murders.

There was a marked decrease during the year in shooting and stabbing assaults. Burglaries decreased progressively throughout the year and grand larcenies decreased during the first three quarters but increased in the last quarter. Stolen and lost property aggregating in value \$1,975,558.14 was recovered and returned to its owners during the year.

There were 432 suicides in the city during 1915, an increase of 31 over 1914, and 2,911 persons were found dead. The police took 548 bodies from the rivers and rescued 166 people from drowning. Sick and injured persons to the number of 110,616 were aided by the police—an average of over 300 a day.

The Bureau of Missing Persons investigated 4,439 cases of residents reported missing during the year and located 3,610 of them. A total of 829 persons dropped completely out of sight in the city during 1915 and some of these were undoubtedly among the unidentified dead, numbering 114.

Boys and girls to the number of ninety-seven and girl infants to the number of seventy-two were abandoned on the streets or in public places and picked up by policemen during the year. There was an increase of thirty-eight in boy babies and thirty-one in girl babies abandoned over 1914.

Boys and girls to the number of 2,878 were found lost on the streets during the year and 2,876 of them were promptly claimed by their parents at the station or sent to their homes. The Children's Society took care of 984 and one was sent to a hospital.

Inquiries from other cities about people supposed to be lost in New York numbered 1,624. The police located 1,132 of these visitors, of whom some were not lost at all, but simply too busy to write home. The police figures show that 492 persons came to New York from other places and were swallowed up by the city during the year.

The cost of the Police Department in 1915 is shown in the following table:

Operation	\$18,221,580.25
Maintenance	1,854,840.00
Equipment	121,860.11
Finance	2,478,000.27
Total	\$22,675,280.63

MR. SCHIMMEL'S GOOD WORK

Assemblyman Aids Efforts to Obtain Taxation Relief.

In an article printed yesterday relating to the necessity for Legislators from the city to get together and work for taxation relief, The Evening World inadvertently stated that Assemblyman Henry S. Schimmel of the Fourth Manhattan District was not in attendance at the meeting at the City Hall last Friday.

The fact that The Evening World stated in the same article that he did attend the meeting fails to balance off the presentation of his name in the list of non-attendees. For the information of Assemblyman Schimmel's constituents and the taxpayers of New York generally, The Evening World takes pleasure in recording that the Assemblyman was present and took marked interest in the proceedings. Representing as he does an East Side district, in which the taxation load is particularly burdensome to property owners and tenants alike, he is undoubtedly alive to any suggestions for relief.

ARTIST SENT TO ISLAND.

Sentenced for Insulting Model, Despite Pleas to Her Aid.

The pleas of relatives and attorneys in behalf of Edward Whitlock McDowell, who was charged by Mrs. Nellie Thomas with ill-treating her at his studio, No. 26 East Twenty-third Street, when she answered his advertisement for a model, did not avail, and Magistrate House in Yorkville Court to-day sentenced him to six months on the island. The relatives and attorneys sought to have him sent to a sanitarium near Baltimore, his birthplace.

McDowell, who is fifty-nine years old, had several young women testify that they had power for him. They said he had been gentlemanly in his conduct. He admitted he had not paid a picture in fourteen years. He denied the accusations of Mrs. Thomas. Police Capt. Day testified that he had received many complaints.

MITCHELL SOUGHT CHURCHILL PLEDGE ON SCHOOL PLANS

Demanded It as Condition of His Reappointment to Board of Education.

Two new and decidedly interesting chapters were written into the feud between Mayor Mitchell and former President Churchill of the Board of Education to-day when it was reported that Churchill was reappointed a member of the Education Board before the beginning of the Mitchell administration only after two promises had been exacted of him.

It was reported on very reliable authority that an emissary of the Mayor-elect went to Churchill and informed him that he could be reappointed if he would accede to the incoming Mayor's wishes. The promises Mr. Churchill was asked to make were:

First, that he would quietly and without fuss resign as President of the Board if the Mayor indicated that his services in that office were no longer desirable by the powers at City Hall.

Second, that Mr. Churchill should go on record as being in favor of a smaller Board of Education, or at least that he would not do anything to hinder legislation intended to bring about the formation of a smaller board.

Mayor Mitchell denied that he exacted a promise from Mr. Churchill to resign when asked. But he did admit that he discussed a plan for a smaller board with Mr. Churchill, and that City Chamberlain Bruere was present. In his testimony before the Brown Legislative Committee President Churchill said he was opposed to a smaller Board of Education, which Mayor Mitchell has all along favored.

In view of this testimony Mayor Mitchell's version of what occurred at the private conference he had with Churchill and at which City Chamberlain Bruere was present, is very interesting.

"It was true that I discussed a smaller Board of Education with Mr. Churchill in the presence of Mr. Bruere," explains the Mayor. "Although he didn't flatly say so, Churchill gave me the impression that he would support the plan for a smaller Board. I was left with the impression that there would be no opposition from the President of the Board of Education."

It is understood that when Churchill began his campaign against the Mayor's plans for a smaller Board the Mayor concluded that it was about time to line up his forces against those of the man he had induced Acting Mayor Kline to name.

The Mayor was asked to-day to state specifically just when and where Mr. Churchill had played politics in the Board of Education.

"I could state instances, many of them, but I am not going to," replied the Mayor. "I regard this incident as closed. The Board of Education has a new President, for which I have congratulated it. Now the Board can go on with its constructive work."

"Did you exact any promise from recent appointees to the Board of Education to the effect that they vote for Mr. Willcox as President of the Board?" the Mayor was asked.

"I did talk to the new appointees about Mr. Willcox," admitted the Mayor, "and it was my understanding that they would vote for him. 'Did you make it a condition of the appointments that the appointees vote for Mr. Willcox?'"

"Certainly not; I didn't exact a

PRINCESS CAPTURED BY BRITISH NOW ON WAY TO HOME IN AUSTRIA.

Princess Emmanuel de Salm-Salm.

Despatches from Plymouth, England, tell of the capture of Prince and Princess Emmanuel de Salm-Salm of Austria, while on a hunting trip in South Africa, and their exchange for Col. Gordon, V. C., who was captured at Mena. Prince Emmanuel is an Austrian cavalry officer and is the oldest son and heir of Prince de Salm-Salm. The Princess is the eldest daughter of the Archduke Frederick, Commander-in-Chief of the Austro-Hungarian army. Col. Gordon is a friend and chum of Lord Kitchener.

written pledge, if that's what you mean. I was dealing with ladies and gentlemen. It is the duty of the Mayor to acquaint his appointees with conditions and to get their viewpoints on the questions at issue. That is the duty of an appointive officer. We want to get something done in the Board of Education and stop this cat and dog bickering, which has been going on between that Department and the Board of Estimate."

"I am willing to admit that Mr. Churchill has done many admirable things for the schools, but on the other hand he has done other things that are not so admirable. We can't get much done for school children by playing politics, such as campaigning for an elective Board of Education and against a smaller board."

"You might emphasize as strongly as you like that from now I do not expect to find artificial deficits in the Board of Education Accounts created for the purpose of placing blame on the Board of Estimate."

The Mayor was asked how long Mr. Churchill's attitude in school affairs has been distasteful to him. He replied that what he termed the Churchill political activities have extended over a period of a year and a half.

Urges Memorial Bridge Across the Potomac.

WASHINGTON, Feb. 8.—A luncheon with 1,000 guests, was given to-day by the Patriotic Legion to urge Congressional action for a memorial bridge across the Potomac from Washington to Arlington Cemetery.

The G. A. R. Loyal Legion, Knights of Labor and Knights of America were among the organizations participating. Addresses were made by former Senator Marlon Butler of South Carolina, Representative Poicht of Pennsylvania and Dr. A. M. Wharton of Baltimore.

50 WATCHED BLAZE, OWN LIVES IN PERIL

Tenement Dwellers Didn't Know of Danger Till Police Drove Them to Street.

The tenants at No. 256 Wythe Avenue, Williamsburg, leaned out of windows and enjoyed a fine view for half an hour early to-day, and then the police reserves invaded the tenement. The fifty men, women and children had been so engrossed with the spectacle they were unprepared for a trip into the cold night air, but it had been decided the house was in danger.

So they were shooshed unceremoniously into the streets, wrapped in bed clothes, overcoats and cloaks, and carrying their clothes and as much other property as they could in their arms. A candy store nearby was opened and there they remained until it was safe to return to their homes. The fire was in the four-story factory building at No. 254 Wythe Avenue. It started on the third floor and did \$10,000 damage. A second alarm was sent in because of the danger to the rest of the neighborhood.

Properly fitted glasses make people look bright and intellectual—poorly fitted glasses make men and women look commonplace.

We make Harris Glasses only after a careful study and understanding of YOUR particular needs.

Whether you "look well" in glasses or not depends greatly upon the shape of the lenses.

We grind lenses that are best suited to your facial contour.

Let us make eyeglass wearing a pleasure and a comfort for you, as we have done for more than 250,000 others.

Harris Glasses cost \$2.00 or more.

NEW ADDRESS

Fifth Avenue at Fifty-third Street, New York

The Health Alarm

often sounds first in the doctor's office when some healthy looking specimen of humanity, undergoing examination for life insurance, is told that his blood pressure is too high.

Increased blood pressure is no longer confined to old age; it is frequently found in men in their 40's who are otherwise healthy. In such cases it points to approaching degeneration of the arteries—a condition which in turn indicates those errors of diet that often end in various diseases of the stomach, kidneys, liver, nerves and heart.

Among these errors of diet is coffee drinking, because of the drug, caffeine, in coffee, the constant use of which weakens the walls of the arteries. Medical authorities now insist that in all cases of high blood pressure there must be total abstinence from coffee, tea and other harmful beverages.

Hard to give up coffee? Not at all, when one uses instead the pure food-drink—

Instant Postum

This delicious beverage is made of wheat, roasted with a little wholesome molasses. It is then reduced to a soluble powder, a level teaspoonful of which with hot water makes a perfect cup instantly.

Instant Postum tastes much like mild Java coffee, but is absolutely free from the drug, caffeine, or any harmful ingredient. It does contain those vitalizing elements of the grain which make for normal balance of the system.

"There's a Reason"

Send a 2-cent stamp to Postum Cereal Co., Ltd., at Battle Creek, Mich., for a 5-cup sample of Instant Postum.

Special Prices TO-MORROW ONLY

Here is an opportunity to obtain a new, fully guaranteed piano or player-piano at a great price reduction.

NEW PIANOS \$210

Tone should be your first consideration in buying a new piano. Every one of the several makes which we offer in this sale has regularly sold at prices up to \$350, and in tone, design, materials and finish (a rich mahogany or mission oak) they compare favorably with the high-priced makes. Special price for to-morrow.
